Mother's Day Activity

Mothers of all ages and abilities will love to create their own pretty butterfly decoration using our template (see sheet 2). Just photocopy directly onto card or sheets of paper NB: Why not reduce the size by 50% and create smaller shapes to attach on top to give a 3D effect.

Butterflies can be coloured using paints or coloured pens, adding various embellishments to personalise them.

Why not use the small template to make these lovely napkin rings. Just decorate and glue or sellotape to strips of card, then join the ends.

Use varying sizes to create
A 3D butterfly. Will make a
great door or wall decoration.
