## Create your own Halloween Milk Ghost Decorations

### Items Needed:

Empty Milk Bottles  
Black Permanent Pen or Sticky Eyes  
Pipe cleaners – If you want to add hair or arms  
PVA Glue  
Tea Light Candles – or glow sticks

### Method

Using a clean, washed-out milk bottle (any size), use a permanent pen to draw scary eyes and expressions on the front of the milk bottle.

Carefully cut out a hole in the bottom at the back of the milk bottle to insert your battery powered candle or alternatively use battery lights or snap a couple of multi coloured glow sticks and put them in the bottle from the top.

Place on a mantel piece, windowsill or by a door for a scary look.

**Happy creating!**
