

## Butterfly Hunt

- Print and cut out multiple of the below butterfly templates.
- Get the residents to decorate the butterflies.
- Once this has been done hang the butterflies in and around the home in random places.
- Then with the score card you can create a game and mark how many you can spot throughout the day.

Top Tip - If someone is experiencing stress or discomfort you could take them around the home to spot the butterflies to take their mind off what is bothering them.
